

## WOMEN, INFANTS, AND CHILDREN (WIC) PQI RESULTS FOR 2018

**Goal:** By January 2019, the average monthly caseload will be 2,000 participants in the WIC program.

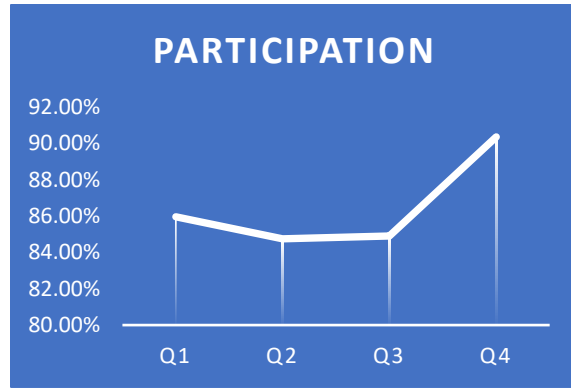

**Goal:** By January 2019, 25% of all mothers referred to the breastfeeding peer counselors will connect with a peer counselor.

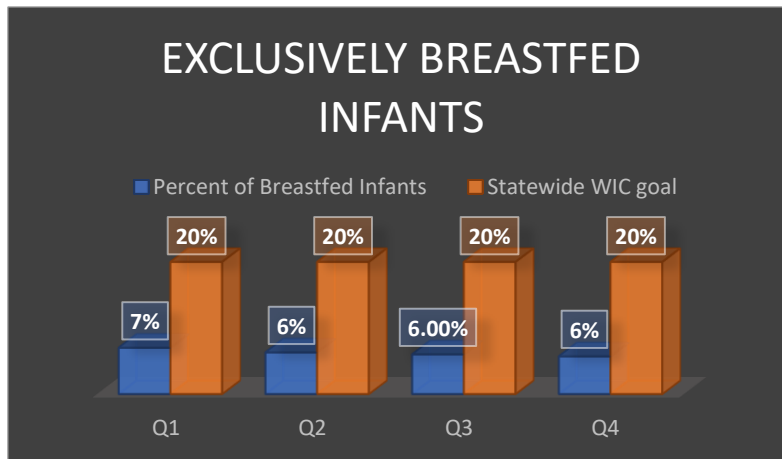

**Goal:** Increase participation of enrolled WIC families (attendance to WIC appointment).

- Each quarter, the average percent of enrolled WIC families with benefits will be above 86.2%, which is the FY 2018 Q1 state average.

**Goal:** The percent of exclusively breastfed infants at 6 months postpartum will be 12%.

**Record Review:** Files were reviewed all four quarters and were 100% complete and accurate each quarter.

**Program Evaluation:** Clients were surveyed by the state in quarter 3. Clients reported high satisfaction to patient-centered services and reported they felt Family Service provided a confidential service environment.
